J. Sargeant Reynolds Community College Libraries

Your first stop for information and research needs!

NetLibrary: eBook collection

About NetLibrary

NetLibrary is a database containing over **10,000 online full-text books** that can be read from any Internet-accessible computer or laptop at anytime and anywhere. NetLibrary covers a multitude of subject areas including career, study guide, and nursing collections as well as public domain books in literature and history.

Why would I want to read a whole book on a computer screen?

In general, people do not read books cover to cover on a computer screen. Online books can be used for quick reference guides, book previews, and brief overviews. For many online books, you may be interested in reading only specific chapters or sections.
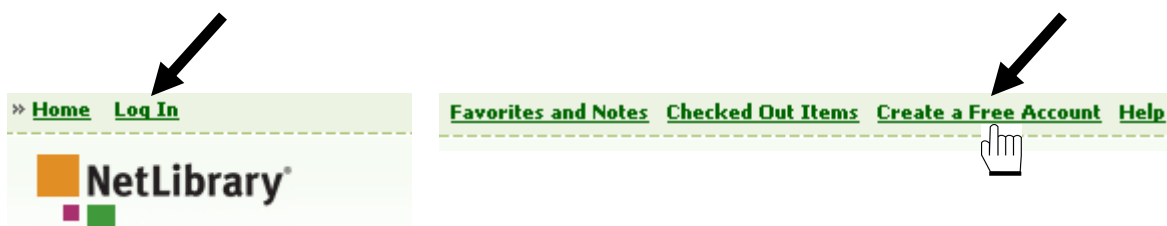

Accessing NetLibrary Books

There are **3 ways to access** NetLibrary:

1. Search the **VCCSLinc Library Catalog** for NetLibrary eBooks. Catalog link is available from the library's home page at **http://www.reynolds.edu/library/**.
2. Click on **Research Databases** from the library's home page. When the alphabetical list of databases appears, click on **N**, then click on the **NetLibrary** link.
3. Go directly to **http://www.netlibrary.com**.

To access NetLibrary from outside campus, you will need to set up your own personal NetLibrary account from the NetLibrary web site using any Internet terminal **on campus.**

Creating a NetLibrary Account

1. Go to **http://www.netlibrary.com**. Click on **Create a Free Account** from the NetLibrary home page.
2. When the next screen appears, fill out the required information. When you are done, click on the **Create Account** button. Remember to jot down your **username** and **password**.
3. Once your account is set up, you can access NetLibrary from off-campus by clicking on the **Log In** link and entering your NetLibrary username and password.

Accessing NetLibrary Books from the VCCSLinc Library Catalog

1. From the catalog results list, click on the **NetLibrary link** under the *Ext Link* column.

Author	Title	Year	Call Number	Campus (owned/out)	Ext Link
Swanson, Barbara Mardinly.	Careers in health care [electronic resource] /	2005	Internet - Books-- Online access Internet --	Eastern Shore J. Sargeant Reynolds New River	{An electronic book available to college users. Consult the netLibrary ebook on the Library homepage. Access requires a free individual user account. }

2. When the NetLibrary e-book Details screen appears, click on View this e-book.

Viewing an eBook

Viewing an eBook is the equivalent of taking a book off the shelf and browsing or reading through it. While you are actively using your keyboard or mouse, no other user will have access to it. If 15 minutes elapse without active use, the book is "put back on the shelf" and another user will have access.

Basic Search

You can search for the words anywhere in the **Full-Text** of the book or select from the menu on the left and find terms in the **Keyword**, **Title**, **Author**, or **Subject**. Press the <**Enter**> key or click on the **Search** button to execute the search.
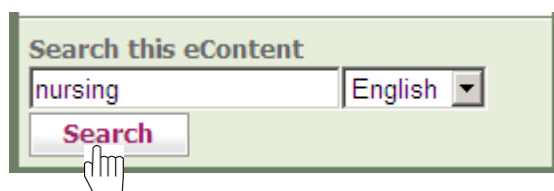

Searching eContent

When viewing an ebook, you can **search for terms anywhere within the eBook** by typing your term in the **Search this eContent** search window. NetLibrary will search for every occurrence of the term in the book and provide page #'s, summaries, and links for every occurrence of the term.

Printing Pages from an eBook

When reading an eBook online **you may print or copy one page at a time** by using the printer option from the Acrobat toolbar. Although you can print parts of an eBook, printing an entire eBook violates copyright laws. Netlibrary takes precautions to protect those copyright laws. If a suspicious usage pattern indicates excessive copying, the activity is logged and you are sent a copyright warning message.

More Help

If you need additional help in using NetLibrary, **ask a Librarian** at JSRCC by coming in person to the Reference Desk, calling us, or emailing us.

Ask a Librarian@JSRCC

Or click on the **NetLibrary Help** link located near the upper right side of the NetLibrary screen.
